

Adrian Jewell, Software Engineer

SAN FRANCISCO, 94103, UNITED STATES · 607-221-6266

EXPERIENCE

Technical Career Coach, App Academy

January 2019 – Present, San Francisco, CA

Software Engineer, Jewell Consulting

November – December 2018, San Francisco, CA

- Accepted into the Oberlin LaunchU Accelerator Bootcamp with [Theorizer](#), an artificial intelligence for piano music analysis with potential to generate \$3000 a month in revenue.
- Verified quality of media playback through research and testing for [IMSLP.org](#), a free online catalog of over 450,000 musical scores.
- Saved ten hours of work for Slaughter Enterprises with a web-based script.

Software Engineer, Williams-Sonoma (through New Elevation)

March – October 2018, San Francisco, CA

- Delivered tens of millions of dollars of value to the company by streamlining inventory management processes.
- Built features currently in use at over 1000 stores around the country by pushing robust Javascript, HTML5, CSS3, and Java code to production for an OMS with 30,000+ daily users.
- Accommodated a lean team by fulfilling multiple roles beyond official job duties: built UI wireframes(2), wrote JIRA tickets (30+), demoed to leadership (3x), negotiated API contracts (4).
- Closed a performance gap by preventing 30,000 late-order fulfillments during peak season with a new feature.
- Helped an intern complete a successful demo to executive leadership and land a job offer through direct mentorship in frontend development for 1.5 months.
- Hit the ground running in a position with minimal formal on-boarding, and wrote over 4000 words of previously unwritten documentation to assist future developers.

ACCOLADES

Hackathon Prize Winner and Team Participant ([portfolio](#))

San Francisco, CA

- Won cash prizes for presenting full-stack solutions for homelessness, active-shooter emergencies, sustainability, crypto-currency trading, genetic advising, and supply chain.
